

Automatic Entrance Gate (Se800)

KEY FEATURES

- Less Power consumption.
- Heavy duty motor which gives 500+ operations per day.
- Innovative and elegant look.
- Safe guard against accidents.
- Control and security in your hand.
- Protection against the heating element.
- Fast opening and closing.
- Higher protection level.
- Smooth Operations.
- Low maintenance cost.
- Microprocessor based controller deliver extremely effective energy saving high speed, high torque and non-warming features which gives continuous operations.

SPECIFICATION	SC-S-ASG800
Power Supply	230V
Operating speed	0.24 m/sec
Max Thrust Force	600N
Motor Capacity	240 W
Current Absorb	1.5 amp
Max Gate weight	800 kg
Rack Module	4 Module Rack
Weight Of the operator	10kg
Protection grade	IP44
Daily cycle suggested	500
Service	70%
Operating temperature	-35 to +55 °C
Maximum Opening	15m
