

Non-Contact Rapid Temperature Measurement System

Over-temperature audible and visual alarm, automatic photo taking, no need to stay for temperature measurement.

System Composition: Thermal Imaging Equipment + Energy Storage Power + Tripod + Police Lights.

Features: Supports SD card, USB and other import methods. Has powerful image processing capabilities.

Specification	S-DIRT4
Screen	7.11CM (2.8) TFT screen
Infrared Detector Resolution	160 x 120
Display Resolution	320 x 240
Camera Resolution	640 x 480
Frame Rate	9Hz
Temperature Measurement Range	30°C ~ 45°C
Accuracy	± 0.5°C
Distance	1m, Measuring
Storage	Take and store photos to SD card
Battery	Rechargeable 3.7V / 5000mAh lithium battery, 22650 single cell
Battery Working Hrs	Up to 6 Hrs, to escort your continuous work
Weatherproof	IP65
Drop Distance	Up to 2m
Tripod Mounting Hole	1/4 inch
