

Video Door Phone

with 7 Inch LCD Screen

KEY FEATURES

- 17.78 cm (7) Color LCD Display
- Two Way Communication
- Ultra-Thin & Elegant Design
- HD sensors

- 17.78cm (7) Color TFT Screen**
The Secureeye video door screen has a 7 inch screen. The TFT screen gives you a clear and bright picture - enabling you to easily identify people at the door. You can also adjust brightness, contrast and volume, for added convenience.
- Two Way Communication**
You can also communicate with the person at the door with a single touch of a button.
- Ultra-Thin & Elegant Design**
The indoor unit is enclosed in an elegant case that is also thin and sleek. The minimalism makes the design helps it to blend in with almost any interior.
- HD Sensors**
HD sensors create high-quality, low-noise images that render clearly on the screen. Coupled with the high-quality screen, this feature gives you a very clear picture of who is at your door.
