LED Strip Length

- Alexa & Google Assistant for Voice Control: Free your hands to control led strip lights via Alexa & Google assistant. Use simple conversation starters to turn on/off the led lights, set colors or adjust brightness. It is also compatible with Echo & Google Home. What a smart and intelligent strip light it is!
- WiFi/Bluetooth Control via App: "Secureye Smart" App does what the light strip can do (turn on and off/change colors and brightness). Besides, it supports 16 million colors so that you can DIY your favorite colors by mixing several colors. 7 scenes mode satisfies your various needs anywhere. Timer function also allows you to set your home light system in smart way.
- Perfect Ambience Light: The light strips are made of premium bright 5050 LED lights.
- Easy to Install: All-in-one kit with an approved adapter makes a simple way for decoration. Genuine 3M tape and support clips reinforce the lights. Simply stick the strip light on clean, dry surface and start to use.
